PROFESSIONAL SUMMARY

Motivated and enthusiastic B. Tech student specializing in Computer Science and Machine Learning, with a diploma background in Computer Science Engineering. Interested in software development, web technologies, and AI-driven solutions. Skilled in problem-solving, programming, and continuous learning, with a passion for developing practical and innovative applications.

EDUCATION

B.Tech - Artificial Intelligence and Machine Learning

June 2025 - Apr 2028

GURU NANAK INSTITUTIONS TECHNICAL CAMPUS HYDERABAD

Currently pursuing

Diploma (Computer Science and Engineering)

Aug 2022 - Apr 2025

ST.MARY'S ENGINEERING COLLEGE

Completed

SSC

June 2020 - May 2022

GEETHA HIGH SCHOOL

Completed

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Core Computer Science: Data Structures, Algorithms, OOP, DBMS, Operating Systems, SDLC

Software Development: Problem Solving, Debugging, REST APIs, GitHub

AI/ML: Machine Learning, NLP, Regression, Classification, CNN, YOLO

Databases: MySQL, PostgreSQL

PROJECTS

ATS Resume Screening System

- A smart HR technology solution that automates resume screening, compares candidate profiles with job needs, and predicts suitability scores. The system works by collecting candidate details and resumes through an application form. It then extracts important information such as skills.

Driver Drowsiness Detection System

- A smart AI-based driver monitoring system that observes eye movements and blinking patterns to identify signs of fatigue or drowsiness. Once detected, it alerts the driver in real time, helping improve road safety and reduce accident risks.

Certifications

- AWS – Solution Architecture Job Simulation
- TATA – GenAI powered Data Analytics Job Simulation
- THIRDBRIDGE Client service delivery Job Simulation

Smart Habit Tracker

- Developed a productivity application for personalized habit monitoring and performance improvement.
- Implemented recommendation-based engagement strategies.

Leadership

- Project Team Leadership: Coordinated academic project activities, divided tasks among team members, and contributed to successful project development and presentation.
- Project Expo Participation: Presented an innovative technical project
- Hackathon Participation: Participated in technical and innovation-focused events, collaborating with team members to develop practical solutions.

Smart Habit Tracker

- Developed a productivity application for personalized habit monitoring and performance improvement.
- Implemented recommendation-based engagement strategies.
